

Australian Prawn Farmers Association

Together with

Australian Barramundi Farmers Association

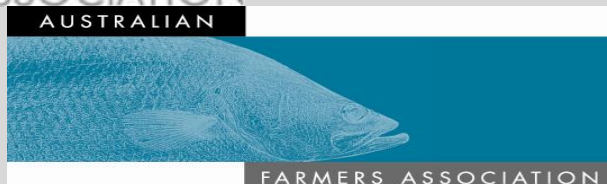

Invite a CALL FOR PAPERS

2011 RIDLEY AQUA-FEED PRAWN & BARRAMUNDI CONFERENCE

3rd – 5th August 2011

**Dockside Conference Centre,
Cockle Bay Wharf, Darling Harbour, Sydney**

www.apfa.com.au

Introduction

The 2011 Ridley Aqua-Feed Australian Prawn and Barramundi Conference will be held Australia 3rd – 5th August 2011. We encourage you to come to Sydney, home of the Sydney Fish Market attend the conference; visit all that Sydney has to offer.

Why not consider a post conference tour to Cairns to visit with two of our major farms and partake in the tourist attractions that only Cairns can offer such as a trip to the Great Barrier Reef or take a Skyrail tour over the tropical rainforest terrain or perhaps be mesmerised by a local crocodile farm.

The Conference and Trade Show will be held on August 3 - 4, with members-only meetings on Friday August, 5.

The combined Prawn and Barramundi industries contribute approximately \$75 million to the Australian economy and are world class, sustainable farms. The Trade Exhibition provides your company with an opportunity for exposure to both the prawn and barramundi sectors – owners, farm managers, hatchery managers, farm employees, researchers and government agencies. This year's Trade Exhibition will provide up to 15 trade booths.

The Dockside Conference Centre is close to Sydney's CBD, the Sydney Fish Market and the wonderful Darling Harbour. Why not do the Sydney Harbour Bridge Climb just one of the many tourist activities on offer.

As always there is a heavy focus on current or emerging global research and technology that could benefit our farms, enhances farm performance, sustainability, environmental or production and ultimately encourages and guides enterprises to remain profitable. The conference will provide an opportunity for presentation of new work and results to an influential and informed audience.

Call for Papers

The conference program committee calls for papers from interested parties seeking to deliver to the audience up to date research and information in the following aquaculture industry themes:

Breeding and genetics

Growout

Marketing

Governance and Management

Environment

Energy Efficiency

Juvenile production

Processing

Workforce training

Research Frontiers

Climate Change

Biodiversity

Duration of each presentation to be strictly 20 minutes including 5 minutes for question time.

Submitting authors are required to include a brief biography highlighting professional experience, in no more than one paragraph.

The conference committee will evaluate full papers, or if summary is presented may request more detailed information.

Please note that presenters must be registered conference delegates and pay the appropriate registration fee.
